

UV-LIGHT

LED light for UV curing of medium sized paint repair areas

ORIGINAL
SCANGRIP

SINCE 1906

UV-LIGHT is a flexible, rechargeable LED hand-held work light designed for small and medium cure areas.

It is very handy and easy to carry in the pocket or in the work belt with the built-in clip. Place the lamp anywhere you want with the turnable sturdy hook or the strong built-in magnet. The flexible lamp head tilts up to 180 degrees.

The shape provides a comfortable, ergonomic grip, and has a durable construction. It is supplied with a solvent resistant, exchangeable glass lens.

UV-Light is supplied with an intelligent battery indicator at the front that keeps you informed about the battery level. Supplied with a charging base for easy charging.

No heat is produced on the panel or the paint during the curing, allowing curing of plastic parts or any heat sensitive material.

TECHNICAL SPECIFICATIONS
